HEALTH COACHING

What is Health Coaching?

Health and well-being shouldn't be complicated. Marquee Health coaching simplifies the journey by providing nonjudgmental, confidential support to help you achieve balance in your physical, mental, and financial well-being.

Board certified coaches take an evidenced-based approach to develop personal plans that align with your goals and comfort level. Every member begins with an Initial Health Assessment, laying the foundation for success. Through guided coaching, you'll gain a deeper understanding of positive self-talk, learn to draw from personal challenges and successes, and identify strategies that work best for you.

Whether you're looking to improve your nutrition, manage stress, enhance fitness, or achieve overall well-being, Marquee Health coaches tailor programs to your needs, empowering you to create lasting meaningful change.

Access Marquee Health

Once you have logged into your Personal Health Dashboard and completed your Health Risk Assessment, it's easy to book a health coach appointment online. Just navigate to My Benefit Tools, then Health Coach, to select a time and date that works best for you!

The SmartHealth+ Limited Hospital Indemnity Plan offers a fixed daily cash benefit for covered hospitalizations. It is a supplementary insurance policy, not traditional health insurance. The coverage includes:

- Initial Hospital Admission (24 hours)
- Inpatient Hospital Confinement (Days 2+)
- Emergency Department Visits
- Ambulance Services

Benefits are paid directly to the patient, allowing them to use the funds for various expenses like medical bills or groceries.

EXAMPLE

If Maria's employer enrolls her in Plan 1200, her coverage includes:

- \$750 for hospital admission (first 24 hours)
- \$400 for each consecutive day after the first 24 hours (for up to 7 days in the hospital)
- \$250 for up to 4 emergency room visits per year
- \$250 for up to 2 ambulance rides per year

In her case, after a typical 3-day hospital stay for delivery, Maria would receive \$750 for admission (day 1) plus \$800 for days 2 and 3, totaling \$1,550. Additional benefits may be applied to ER visits or ambulance rides as needed.

Total Financial Support from Hospital Indemnity Insurance:

- Hospital Admission (1 day): \$750
- Hospital Stay (2 days): \$800 (2 x \$400)
- Total: \$750 + \$800 = \$1,550

Financial Impact

Maria receives \$1,550 from her hospital indemnity insurance, which significantly helps with her hospital-related expenses. This payment can cover her deductible, copays, family meals and lodging, and new baby supplies. The insurance provides her with a safety net, allowing her to focus on recovery and her new baby without financial worries during this important time.

IMPORTANT: This is a fixed indemnity policy, NOT health insurance. This fixed indemnity policy may pay you a limited dollar amount if you're sick or hospitalized. You're still responsible for paying the cost of your care.

YUNA MENTAL HEALTH

Accessing Yuna

Head to your Personal Health Dashboard and look for the Yuna section to start taking advantage of the support you've been looking for.

portal.smarthealthplus.org

What is it?

With SmartHealth+, you get unlimited 24/7 access to Yuna, a resource that provides immediate mental health support to every employee.

If you've experienced long wait times to access therapy, high cost of traditional mental health care, lack of proactive mental health solutions, or stigma around seeking help, Yuna can help you tackle it all from burnout to maintaining a positive outlook.

SmartHealth+ PROGRAM COST

The most exciting part of this SmartHealth+ program is that it results in no out-of-pocket costs for its members.

Even though a deduction is made from your paycheck, the deduction is offset by the claim you receive as a credit for participating in the health management program.

In addition, as a qualified Section 125 plan, SmartHealth+ premiums are deducted on a pre-tax basis. Like your major medical or 401K premiums, these deductions can lower the amount you owe Uncle Sam each year.

Your savings plus the claim amount cover the cost of the benefit, which means no out-of-pocket cost.

IMPORTANT

A monthly well-being activity must be completed by the 25th of each month. You must be opted into communications to receive activity reminders. Failure to participate could result in loss of these benefits.

FAQs

How can a health benefit increase my take home pay?

Section 125 of the IRS code allows certain health and retirement benefits to be deducted from your paycheck on a pre-tax basis. This means that your payroll taxes are calculated on the remainder of your pay, after the deduction has been taken. You receive a claim payment benefit for participating in the plan. See the paycheck example on page 10 for an illustration of how this works.

Why was I auto-enrolled in this benefit?

Employees are only enrolled in the plan if they see a positive impact in their paycheck. In other words, if your paycheck would be more under the plan, you are enrolled. If your pay would be less, then you're not enrolled.

What is the claim payment?

The claim payment is the amount you receive for participation in the SmartHealth+ program. Be sure to login to your account by the 25th of each month and complete your monthly well-being activity. The program will help you track and minimize your health risks, achieve better health outcomes, and potentially reduce your need for medical intervention.

Which services qualify for a hospital indemnity claim?

Benefits are payable for initial hospital admission of greater than 24 hours, consecutive days of confinement (days 2+), emergency department services, and ambulance services. You must be admitted for 24+ hours to receive claim benefits. Outpatient hospitalization, where you are released the same day, does not qualify for the benefit payment unless you were seen in the emergency room or transported by ambulance.

Do I need prior authorization before going to the hospital?

No. The hospital coverage is a fixed indemnity policy. It pays a preset amount directly to you for specific services, regardless how much the hospital bills you.

Is this major medical insurance?

No. This is supplemental coverage, in addition to any major medical insurance you have through your employer. Members do have access to 24/7 telehealth at \$0 copay. However, this benefit will not cover the costs for you to be seen in person with your local healthcare provider.
